tabreedmep.ae

10

How we work

01

Design

Heat-load calculation to ASHRAE methods and system selection, or the consultant's approved design.

02

Supply

Equipment from established manufacturers, and ductwork from our own workshop.

03

Install

Equipment, ductwork and pipework installed on site with the main contractor.

04

Commission

Each system is tested and commissioned before handover.

05

Maintain

Annual maintenance contracts and an on-call breakdown service.

11
